

Warren Knox

Warren Knox has thirty years experience as a research scientist and research manager for The Dow Chemical Company. He led analytical physical and chemical methodology development for new materials programs in electronics, ceramics, polymer science and catalysis. He also provided technical support to Dow's extensive materials Technical Service and Development programs and was Project Manager for Global Hazard Communication for Dow products.

After retiring he moved to Nevada City where he joined the Environmental Capital Group of Grass Valley as Senior Scientist working to understand environmental impact and long term sustainability of Venture Capital investment opportunities.

Warren has a long history of public service with the United Way of Midland, Michigan, and as the Chair of the Alden B. Dow Museum of Science and Art. He is past Chair of the Nevada County Federation of Neighborhood Associations, a Director of the Nevada County Fire Safe Council, and current Chair of the Board of Directors of the Nevada County Consolidated Fire District.
